PROFILE

I am a second-year Computer Engineering student at Adana Alparslan Türkeş University of Science and Technology. I have strong skills in Python, Java, and C programming languages, with practical experience from various small projects. My English proficiency allows me to understand technical documents and use English resources effectively. I aim to pursue a career in software development and artificial intelligence. Although my experience in AI is limited, I am eager to develop my skills and gain more knowledge to create innovative solutions.
